# TO OUR CUSTOMERS

Dear Friends:

Paradise, Pa.

We are entering our third year of war and by now every one of us has felt its effects in one way or another. Our sons, husbands and brothers are in uniform. We are keeping them supplied with the essential tools of warfare by doing without unnecessary luxuries and buying bonds. We are working harder than ever.

Every business has about the same troubles—acute shortage of labor and material and, as in the case of seed companies, too much rush of business over a short period of the year. Here in Paradise we have done everything possible to get ready for that rush. Please do your part by getting in your orders early and allow two weeks for delivery. We hope very much not to get behind but with thousands of new customers who must have seed for their Victory Gardens, in addition to our old friends, we do not know just what to expect. Play safe and mail your order early.

**Write your name and complete address plainly**—very little mail goes astray if the address is correct, even in wartimes. And lastly, please **do not write letters requiring personal answers** unless the matter is extremely important. In ordinary times we enjoy hearing from you and are glad to answer your questions but these are not ordinary times and the effort we must spend in clearing up unnecessary correspondence could be much better employed in getting out orders. If we are sold out of some of the items you order you will get a credit slip or refund. The guide which goes out with every order will give you all the information you need for planting the seed. Trust us to treat you fairly and don't write unless something is really wrong and you have given us enough time to make adjustment.

Thank you for your patronage and cooperation. We will do our part and between us our efforts will speed the day of victory.

Cordially yours,

*S. Andrews, Jr.*
